Common Mode Filters

For ultra high-speed differential signal line (HDMI, DVI, DisplayPort, USB3.0, etc.)

ACM-D Series

ACM2012D Type

ACM2012D

[0805 inch]*

* Dimensions Code JIS[EIA]

REMINDERS FOR USING THESE PRODUCTS

Before using these products, be sure to request the delivery specifications.

SAFETY REMINDERS

Please pay sufficient attention to the warnings for safe designing when using these products.

NDERS
age conditions (Temperature: 5 to 40°C, Humidity: 10 to 75% RH or
gas corrosion (salt, acid, alkali, etc.).
difference between the solder temperature and chip temperature
he conditions determined in the specifications. shortening may occur.
a set, be sure that residual stress is not given to the chip due to n such as at screw tightening portions.
d ON, so the tolerance should be sufficient for the set thermal
netic shield type.
the grounding wire.
livery specifications.
lectronic equipment (AV equipment, telecommunications uipment, personal equipment, office equipment, measurement idition. Ints of the applications listed below, whose performance and/or e failure, malfunction or trouble could cause serious damage to f you have special requirements exceeding the range or conditions
 (8) Public information-processing equipment (9) Military equipment (10) Electric heating apparatus, burning equipment (11) Disaster prevention/crime prevention equipment (12) Safety equipment (13) Other applications that are not considered general-purpose applications

protection circuit/device or providing backup circuits in your equipment.

Common Mode Filters

⊗TDK

Product compatible with RoHS directive Compatible with lead-free solders

For ultra high-speed differential signal line (HDMI, DVI, DisplayPort, USB3.0, etc.)

Overview of ACM2012D Type

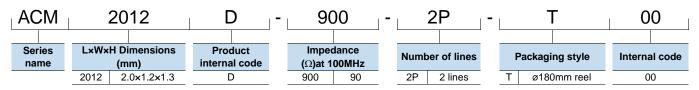

FEATURES

- Broadband common mode filter that was developed for Gbps-level high-speed differential signal interfaces such as DVI and HDMITM.
- O Differential mode cutoff frequency is 3.5GHz, so they do not negatively influence high-speed differential signals.
- O Characteristics impedance is matched for 100Ω, which is set for many differential interfaces, and can suppress unnecessary reflection components.

APPLICATION

- EMI measure for HDMITM, which is an interface for digital video devices:
- ACM2012H is ideal for senders (Sources) such as Digital TVs, DVD recorders, and liquid crystal projectors, while ACM2012D is ideal for receivers (Sink).
- EMI measure for high-speed differential signal interfaces for digital video signal interfaces such as DVI, Display port, and Serial ATA used for PCs, etc.

PART NUMBER CONSTRUCTION

OPERATING TEMPERATURE RANGE, PACKAGE QUANTITY, PRODUCT WEIGHT

	Temperat	ure range	Reel diameter	Package quantity	Individual weight
Туре	Operating Storage temperature				
	(°C)	(°C)	(mm)	(pieces/reel)	(mg)
ACM2012D	-40 to +85 -40 to +85		ø180	2,000	10
* The Otense we to see a set one to see		11 I. I. I. I. I.			

* The Storage temperature range is for after the circuit board is mounted.

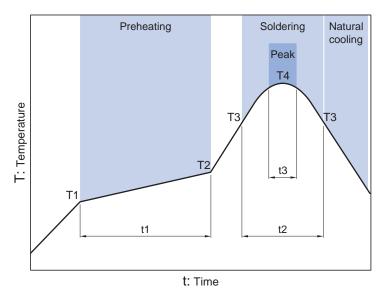

O RoHS Directive Compliant Product: See the following for more details.https://product.tdk.com/info/en/environment/rohs/index.html

O Halogen-free: Indicates that CI content is less than 900ppm, Br content is less than 900ppm, and that the total CI and Br content is less than 1500ppm.
